

Treating a Diabetic Patient with Multi-vessel Disease

20-21 February, 2009

In German language

Learning objectives

At the end of the programme, the attendees should have improved their abilities in:

1. Specifying which kind of revascularisation to choose based on clinical information
2. Deciding which lesion to treat and how
3. Foreseeing the technical difficulties and understanding how to overcome them

Steering board:

- R. Bonan
- B. De Bruyne
- B. Chevalier
- E. Eeckhout
- M. Mason
- P. Urban

Educational Board:

- Prof. Dr J. Thale
- PD Dr N. Franz
- E. Feldkamp

Live case from EuroPCR 2005:

- J. Fajadet, Toulouse

Day 1

- 09.00 - 09.30 > **Welcome and introduction**
- 09.30 - 11.15 > **Presentation of the Case**
